H. Roe Bartle Scout Reservation

2027 Campsite Capacities

Camp capacities are based on DINING HALL CAPACITIES. The Campsite capacities will camp more Scouts/Leaders than the Dining Hall will accommodate. DINING HALL CAPACITY IS SET AT 500 which includes camp staff. Please come prepared with multiple options of sessions and/or camps. THE DINING HALL CAPACITIES ARE FIRM.

Please consider the size that your unit will be next summer when you arrive at camp. Your unit must be able to fit into the capacity of the Camp and Campsite (Campsites will NOT BE COMBINED) or it will be necessary to make changes.

Because of the conservation plan, we will not move additional platforms into campsites. Please understand that part time leaders are not guaranteed a specific seat in the dining hall.

All Leader cabins have been removed. All campsites have concrete platforms.

The capacities of each campsite are listed below.
