

## 10. ENHANCED SANITATION

It's everyone's job to make sure camp is clean. All program areas will be rigorously cleaned daily in accordance with our new **disinfecting protocol** that includes daily checklists and accountability.

### CAMP-WIDE SANITATION (BY STAFF)

- **Tents in Campsites** - Each tent & cot will be treated by a portable disinfectant backpack sprayer between each session to ensure sleeping quarters are clean for the next camper.
- **Pools** - Sanitizing of changing rooms 4 times a day.
- **Restrooms** - Sanitizing of all camp-wide restroom facilities 2 times a day.
- **Program Areas** - Camp Staff will clean any surfaces, teaching materials, and/or program equipment (*tools, shooting sports equipment, boats, canoes, and other*)

### UNIT CAMPSITE SANITATION (BY UNITS)

- Unit leadership will inspect daily to ensure that units clean and disinfect all areas in campsites at least once daily.
- Troops/units will be required to sanitize all campsite tables and latrine areas twice daily.
- Troops/units will be required to bring additional hand sanitizer and soap to ensure that Scouts wash and disinfect their hands before all meals and activities.
- Troops/units will be asked to bring cleaning/sanitation items to their assigned session.
